

Conservation Northwest Field Volunteer Waiver Form

By signing this form, I agree that I am volunteering my time with Conservation Northwest (and the Wilderness Awareness School if volunteering with the Citizen Wildlife Monitoring Project). I may be asked to conduct wildlife monitoring, snow-tracking, habitat restoration or other outdoor duties, which will be described to me by Conservation Northwest staff, contractors or program leads.

I understand that due to the outdoor nature of these volunteer projects there is a level of risk associated. **Should anything happen to me, or my personal vehicle or equipment, while I am in the field, I will not hold Conservation Northwest, its employees, agents, officers, Board, or trustees, the Wilderness Awareness School, public or private land managers, or any other project partner liable.** I understand that it is my sole responsibility to understand my abilities and only accept volunteer assignments within my skill level and physical limitations.

To prepare for my field time with this project, I will ask staff for any additional training and assistance desired, and will plan wisely to ensure my experience as a volunteer is as safe as possible.

For volunteers with the Citizen Wildlife Monitoring Project: I have also read and understand the protocols associated with specific volunteer duties. For field or camera site visits, I or another member of my volunteer team will travel prepared and carry appropriate wilderness safety, first aid, navigation, wildlife deterrence and emergency communications equipment at all times.
